## APS SOL/UV PRO TECHNICAL DATA SHEET

APS SOL/UV PRO

**Name of the product:** APS Sol/UV PRO (Ready to use product)

**Manufacturer:** Access Printing Solution, le Pont de Dranse, 74500 Publier France

**Packaging:** 20L drum, 220L drum, 1000L Drum

### **Aim of the Product:**

- APS SOL/UV PRO: Cleaning product for parts and printing plates (Manual and Cleaning machines)

The APS SOL/UV PRO is a very effective cleaning product to remove dry UV and Solvent based inks from parts and the printing plates.

### **Way of use:**

- Manual cleaning for parts and printing plates: Spray directly the ready to use product on the part or the printing plate that needs to be cleaned, let it act for a few seconds, brush and rinse with water.
- Automatic cleaning for parts and printing plates: Fill in the tank of cleaning product of the machine, warm the product up to 50°C, and chose the right cleaning time. Proceed with rinsing cycle if the cleaning machine allow you to do so.

All cleaning residues can be directly sent with other plant wastes for recycling.
